ganeshkchavan7777@gmail.com | 7892327392 | Bangalore, Karnataka | [GitHub](#)

Summary:

Full Stack Developer with hands-on experience building a production-grade SaaS workforce management platform (eJTime). Skilled in designing scalable backend systems using Java, Spring Boot, and NestJS, and developing responsive frontend applications using React and Next.js.

Experienced in REST API development, authentication systems (JWT/OTP), and deploying applications on AWS. Seeking backend-focused roles to deepen expertise in Java and system design.

Skills:

- Languages: Java, JavaScript, TypeScript
- Backend: Spring Boot, NestJS, Hibernate, REST APIs, Microservices
- Frontend: React.js, Next.js, HTML, CSS
- Database: MySQL, PostgreSQL, Prisma ORM
- Cloud & Tools: AWS (EC2, S3, RDS), Git, Maven, Jira
- Concepts: OOP Principles, System Design Basic, Agile Methodologies

Professional Experience:

Full Stack Developer | eJAmerica | 09/2025 – Present | Mysuru

- Developed eJTime, a multi-tenant SaaS workforce management platform supporting web, desktop, and mobile workflows
- Built scalable frontend modules using Next.js, React, and TypeScript for dashboards, time tracking, and reporting
- Designed and implemented REST APIs using NestJS, Prisma ORM, and MySQL for user, project, and session management
- Implemented secure authentication using OTP, JWT, refresh tokens, and role-based access control
- Developed core features including clock-in/out, session tracking, approvals, leave management, and reporting systems
- Improved system reliability by resolving time zone issues, API failures, and frontend-backend integration bugs

Java Full Stack Developer Intern | Radixile Technologies Solutions | 02/2025 – 08/2025 | Remote

- Developed RESTful APIs for visitor tracking and resident communication systems
- Built backend modules using Spring Boot and PostgreSQL for a society management platform
- Collaborated in Agile development cycles to deliver features with improved code quality

Projects:

LearnSphere: E-Learning Platform

- Built full-stack app using Spring Boot and React with JWT authentication
- Implemented role-based access for students and trainers
- Developed REST APIs for course and user management

AquaTrack: Water Plant Management System

- Developed system for stock, export, and vending tracking
- Built backend using Spring Boot and JPA
- Deployed using AWS (EC2, RDS, S3)

Certification:

Java Full Stack Development

KodNest Technologies Pvt Ltd | Jun 2024 – Jan 2025

Education:

- **B.E in Computer Science and Engineering** 2020 – 2024
 - VTU Belagavi • Karwar, Karnataka (7.09 CGPA)
 - Co-Founder, Jester’s Club – Organized and led cultural college events.
- **Spandana PU Science College** 2018 – 2020
 - Ilkal, KARNATAKA – Scored 73%

Achievements:

- Winner at **Hackzion v.1 Hackathon**, developed an innovative open-source project.
- Active member, **Rotary Club**, fostering teamwork and community service
